OVERVIEW

Twenty39 creates simple solutions for complex problems. We activate the right talent, expertise, and technology to enhance organizational decision-making and realize strategically aligned outcomes. Our core competencies consist of operations enablement, technology and management consulting, and project management. We tailor service delivery to respond to the needs of both public and private organizations, supporting modernization initiatives and the seamless execution of everyday operations.

Mission

Enabling decision performance to develop and adapt capabilities for future readiness.

Vision

We aim to improve decision and operations outcomes through data-informed solutions.

Values

- Be authentic and respectful
- Default to transparency
- Be good citizens
- Go the extra mile
- Do the right thing. Period
- Make a positive impact
- Be agile

DIFFERENTIATORS

We prioritize data and risk management in our services, emphasizing the human factor alongside technology for improved operational performance and project outcomes. Additionally, as the workforce trends toward decentralized access to skilled resources, we've cultivated a unique talent ecosystem that combines a growing talent pool with the agility of small business to have the capacity of a large business in sourcing the right talent for every opportunity.
